Eduardo Sabogal

Front-end Developer

EXPERIENCE

02

2022-2024

IT LOOKS SIMPLE

- Front-end Development Internship

Collaborated closely with a dynamic development team, following Agile Scrum methodologies. Worked with essential project management tools such as Jira, and fostered efficient team communication through Slack.

- Technical Writer

Provided end-user documentation for a successfully launched product.

- UX Tester

Delivered timely feedback to team leaders on new product features during the staging phase of the company's flagship product.

- English Trainer

Conducted English daily training sessions for the Web Development and Graphic Design teams.

2018-2020

TELEPERFORMANCE

- Interpreter

Developed proficiency in various technical languages, including those used in medical, financial, and legal contexts, focusing on accurate and humane communication between parties, all against the backdrop of real-time consecutive interpretation.

2014-2024

ENGLISH TUTORING

- Private Tutor

Taught English language courses for multiple years, including high-school level classes for various student groups until 2015.
